TO: Wisconsin Souvenir Milkcaps
C/O Wally Bohrer

Mr. Bohrer

The Bowling Centers Association of Wisconsin uses the Milkcap Pull Tabs as a fund raising activity to provide:

Scholarships to youth bowlers.

To teach elementary school teachers how to use a bowler education curriculum in elementary physical education classes.

To provide equipment to teach the sport of bowling in the elementary schools gym or physical education room.

Results - we have trained 535 teachers how to teach bowling in their physical education classes at elementary school level, using the in-school bowling equipment and classroom materials. In these classes 150,937 students participate in bowling during their physical education class at school.

We also have trained 57 college seniors that will be teaching physical education after they receive their degrees.

On behalf of the 350 bowling centers in Wisconsin, we want to THANK YOU for providing the resources to bring this program to elementary students throughout the state.

Gary Hartel
Executive Director
Bowling Centers Association of Wisconsin
